

Comments to the FCC re K-Love:

K-love is the only Christian radio station in the Phoenix area that includes upbeat, up-to-date music along with national news reports.

As a resident of the Phoenix area I listen to this station on a daily basis as a source of spiritual strength, teaching and alternative music to the regular stations. I have found (as well as many of my co-workers) that this station provides a change to the daily rock&roll and of benefit to our youth in the message taught daily on the station. The lyrics are morally based, unlike much of the music out there for our youth to listen to. I've also found that by listening to this station on the way home from work (via 45 minutes freeway commute) I am much more patient and understanding of those around me – I think if more people listened to a station of this sort I believe we'd have a lot less road rage!
